### Safety Data Sheet

#### Section 1 – Identification

Product Identifier				
Product name	MAGIC DUCO			
Chemical name	Not Applicable			
Synonyms	Product code:UBMAGICDUCO			
Proper shipping name	Not Applicable			
Chemical formula	Not Applicable			
Other means of identification	Not Applicable			
CAS number	Not Applicable			
Recommended use of the chem	ical and restrictions on use			
Relevant identified uses	Auto wash n wax liquid detergent.			
Details of the manufacturer or importer				
Registered company name	ECOCLEAN UTILITY AGENCIES PTY LTD			
Address	26 Notar Drive, Ormeau, Queensland, Australia, 4220			
Telephone	07 5549 3666			
Website	www.ecocleanavantichem.com.au			
Emergency phone number	Poisons Information Centre: Phone 13 11 26			
Emergency Telephone Number				
Association / Organisation	Poisons Information Centre			
Emergency telephone number	13 11 26			
Other emergency telephone numbers	In an emergency telephone 000, for fire, police and ambulance.			

### Section 2 – Hazard(s) Identification

Classification of the substance or mixture				
Poisons Schedule	Not scheduled			
GHS Classification	Eye Irritation Category 2A			
Label elements				
GHS label pictograms				
Signal word	WARNING			
'Hazard statement(s)				

Page 2 of 12

### Safety Data Sheet

H319	Causes serious eye irritation					
Precautionary statement(s): Pre	vention					
P264	Wash skin thoroughly after handling.					
P280	Wear eye protection/face protection.					
Precautionary statement(s): Res	ponse					
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.					
P337 + P313	If eye irritation persists: Get medical advice/attention.					
Precautionary statement(s): Sto	rage					
	None allocated					
Precautionary statement(s): Dis	posal					
	None allocated					
Note						
IMPORTANT	This SDS and the Hazard Classifications contained therein, only apply to the product in its concentrated form, as supplied. When diluted to 1:3 or greater they no longer apply. However, good hygiene and housekeeping practices should be adhered to.					

#### Section 3 – Composition and Information on Ingredients

In	gredient	CAS Name	Proportion				
	dodecylbenzene Ilphonate	25155-30-0	< 10% w/w				
Sodium la	uryl ether sulfate	68585-34-2	< 10% w/w				
Cocamide r	nonoethanolamide	68140-00-1 <10% w/w					
0	determined to be -hazardous	Various	<10% w/w				
	Water	7732-18-5 >60% w/w					
NOTE:	concentrations as found the criteria of a hazard Substances", or have HARMONIZED SYSTEM	ts determined not to be hazardous are present in concentrations that do not exceed the relevant cut-off tions as found from NOHSC publication "List of Designated Hazardous Substances" or have been found NOT to meet ia of a hazardous substance as defined in the NOHSC publication "Approved Criteria for Classifying Hazardous es", or have been found NOT to meet the criteria of a dangerous substance as defined in the GLOBALLY IZED SYSTEM OF CLASSIFICATION AND LABELLING OF CHEMICALS (GHS), 4th edition United Nations 2011. Listed ts may be below the cut-off concentrations for classification as hazardous, but are listed for information purposes Iditive effects.					

#### Section 4 – First Aid Measures

Description of necessary first aid measures						
Eye Contact	If this product comes in contact with eyes:					
	Rinse cautiously with water for several minutes. Remove contact lenses,					

Page 3 of 12

### Safety Data Sheet

	if present and easy to do. Continue rinsing.					
	<ul> <li>If symptoms persist, call a POISON CENTER or doctor/physician.</li> </ul>					
Skin contact	If skin contact occurs:					
	<ul> <li>Remove / take off immediately all contaminated clothing</li> </ul>					
	Rinse skin with water/shower					
	Wash contaminated clothing before reuse					
Inhalation	<ul> <li>Remove victim to fresh air and keep at rest in a position comfortable for breathing</li> </ul>					
	• If respiratory symptoms: Immediately call POISON CENTER or doctor.					
	Treat symptomatically.					
Ingestion	Rinse mouth.					
	Do NOT induce vomiting.					
	Call a POISON CENTER or doctor/physician.					
Symptoms caused by exposure						
	Causes serious eye irritation.					
Medical attention and special tr	eatment					
	Treat symptomatically					

### **Section 5 – Fire Fighting Measures**

Suitable extinguishing equipment / media				
	<ul> <li>Use an extinguishing media suitable for surrounding fires.</li> <li>Water spray or fog.</li> <li>Foam.</li> <li>Dry Chemical Powder</li> <li>BCF (where allowed)</li> <li>Carbon dioxide</li> </ul>			
Special hazards arising from the	chemical			
Fire incompatibility	No known incompatibility.			
Special protective equipment ar	d precautions for fire fighters			
Fire Fighting	<ul> <li>Alert Fire Brigade and tell them the location and the nature of the hazard.</li> <li>Wear full body protective clothing with breathing apparatus.</li> <li>Prevent spillage from entering drains or watercourse.</li> <li>Keep away from hot containers.</li> <li>Cool hot containers with water spray.</li> </ul>			
Fire/Explosion Hazard	<ul> <li>Non-combustible</li> <li>Not considered to be a considerable fire risk.</li> <li>Containers may explode on heating.</li> <li>May emit acid smoke.</li> <li>May emit corrosive fumes.</li> <li>Decomposition may product toxic fumes of decomposition.</li> </ul>			

Page 4 of 12

### Safety Data Sheet

#### Section 6 – Accidental Release Measures

Personal precautions, protective	equipment and emergency procedures				
Minor spills	<ul> <li>Clean up spills immediately.</li> <li>Avoid contact with skin and eyes.</li> <li>Use Personal Protective Equipment.</li> <li>Contain and absorb spill with vermiculite or other suitable material.</li> <li>Sweep or wipe up.</li> <li>Place in a suitable container for disposal.</li> </ul>				
Major spills	<ul> <li>Clear area of personnel.</li> <li>Use Personal Protective Equipment.</li> <li>Prevent spill from entering drains or watercourse.</li> <li>If contamination occurs contact emergency services.</li> <li>Contain and absorb spill with vermiculite or other suitable material.</li> <li>Label collected material for disposal.</li> <li>Decontaminate if necessary (see section 13).</li> <li>Launder and clean all protective equipment prior to being re-used.</li> </ul>				
Environmental precautions	<ul> <li>Use appropriate containment to avoid environmental contamination.</li> <li>Prevent from spreading and entering waterway using sand, earth or</li> </ul>				
	<ul> <li>other appropriate barriers.</li> <li>DO NOT DISCHARGE BULK QUANTITIES INTO DRAINS, WATERWAYS, SEWER OR ENVIRONMENT.</li> <li>Inform local authorities if this occurs.</li> </ul>				
Methods and materials for cont	ainment and cleaning up				
	Personal protective equipment advice is contained in Section 8 of the SDS				

#### Section 7 – Handling and Storage

Precautions for safe handling	
Safe handling	<ul> <li>Wear prescribed protective clothing.</li> <li>Do NOT eat, drink or smoke when handling.</li> <li>Wash hands after use.</li> <li>Keep containers closed tightly when not in use.</li> <li>Store in accordance to manufacturer's instructions.</li> </ul>
Other information	<ul><li>Store in original containers.</li><li>Store in a cool, dry, well ventilated area out of direct sunlight.</li></ul>
Conditions for safe storage, inclu	iding any incompatibilities
Suitable container	<ul> <li>Not to be transported in unlined metal drums.</li> <li>Lined metal can, lined metal pail/can.</li> <li>Plastic pail.</li> <li>Polyliner drum.</li> </ul>

Page 5 of 12

### Safety Data Sheet

	Packaging as recommended by manufacturer.
Storage incompatibility	No known incompatibilities.

#### Section 8 – Exposure controls and personal protection

Control parame	eters										
Occupational I	Exposure Limits (OEL)	See Ingredients Data and Emergency Limits below.									
Ingredients dat	а										
Source	Ingredient	Material name		TWA		STEL		Peak		Notes	
Australian Exposure	Not available	Not available		Not available Not av		Not ava	ilable	Not availabl	available Not availa		
Standards											
Emergency limi	ts										
Ingredient	TEEL-0		TEEL-1		TE	EL-2		TEEL-3			
not available	not available	9	not ava	ilable	no	t available	9	not available			
IDLH data											
Ingredient		Oı	Original IDLH Rev				Revis	vised IDLH			
Not available	No	ot availat	available Not			Not a	available				
Exposure contro	ols										
Appropria	ate engineering	•	Use in a well ventilated area.								
	controls	General exhaust is adequate under normal operating conditions.									
Pers	Use good occupational work practice.										
	The use of protective clothing and equipment depends upon the										
	degree and nature of exposure.										
Eye and	face protection	• Generally not required to handle diluted solutions of the product as per label directions.									
		<ul> <li>The use of safety glasses with side shield protection, goggles or face shield is recommended to handle concentrate in quantity, cleaning up spills, decanting, etc.</li> <li>Contact lenses pose a special hazard; soft lenses may absorb irritants and all lenses concentrate them.</li> </ul>									

Page 6 of 12

### Safety Data Sheet

Skin protection	See hand protection below
Hand protection	<ul> <li>Generally not required to handle diluted solutions of the product as per label directions.</li> <li>Overalls, apron, work boots and elbow length gloves are recommended for handling the concentrated product (as per AS/NZS 2161, or as recommended by supplier) to handle in quantity, cleaning up spills, decanting, etc.</li> </ul>
Body protection	<ul><li>Wear safety footwear.</li><li>Work clothes.</li></ul>
Respiratory protection	<ul> <li>Generally not required to handle diluted solutions of the product as per label directions.</li> <li>For confined spaces, cleaning up spills, etc, consider Type A Filter of sufficient capacity (AS/NZS 1716 &amp; 1715, EN143:2000, ANSI Z88 or national equivalent).</li> <li>Where the concentration of gas/particulates in the breathing zone, approaches or exceeds the "Exposure Standard" (or ES), respiratory protection is required. Degree of protection varies with both face-piece and Class of filter the nature of the protection varies with Type of filter.</li> </ul>
Other protection	Ensure there is access to eye wash station.
Thermal hazards	None expected

### Section 9 – Physical and Chemical Properties

Information on basic physical and chemical properties			
Appearance	blue coloured liquid	blue coloured liquid	
Physical state	Viscous liquid	Relative density (water=1)	1.03– 1.05 @ 25 °C
Odour	pine	Partition coefficient n- octanol/water	Not available
Odour threshold	Not applicable	Auto-ignition temperature (°C)	Not flammable
pH (as supplied)	8.0 – 9.5	Decomposition temperature	Not available
Melting Point / Freezing Point (°C)	Not available	Viscosity (cSt)	Not available
Initial boiling point and boiling range (°C)	Not available	Molecular weight (g/mol)	Not available
Flash point (°C)	Not flammable	Taste	Not available
Evaporation rate	Not available	Explosive properties	none
Flammability	Not flammable	Oxidising properties	Not available
Upper Explosive Limit	none	Surface Tension	Not available

Page 7 of 12

### Safety Data Sheet

(%)		(dyn/cm or mN/m)	
Lower Explosive Limit (%)	none	Volatile Component (%vol)	Approx. 80-85% v/v
Vapour pressure (kPa)	Not available	Gas group	Not applicable
Solubility in water (g/L)	Miscible in all proportions	pH as a solution (1%)	7.5 – 8.5
Vapour density (Air=1)	Not determined	Volatile organic compounds (VOC)	0%

#### Section 10 – Stability and Reactivity

Reactivity	Stable at normal temperatures and pressure.
Chemical stability	Stable at normal temperatures and pressure.
Possibility of hazardous	Net superted
reactions	Not expected.
Conditions to avoid	Avoid contact with heat or heat sources.
Incompatible materials	Reducing agents, oxidizing agents.
Hazardous decomposition	Product can decompose on combustion to form Carbon Monoxide, Carbon
products	Dioxide, and other possibly toxic gases and vapours.

### Section 11 – Toxicological Information

Information on toxicological effects			
Inha	led No vapour or mist generally based detergent liquid.	associated with liquid for	orm of the product – water
Ingest	ion This product may cause i stomach, nausea and vomiti		, throat, oesophagus and
Skin contact Concentrated product may cause skin irritation. Prolonged conta concentrated solutions may be irritating. Properly diluted wash soluti expected to be irritating.		Ŭ	
E	yes This product may cause eye	This product may cause eye irritation, watering, redness.	
Chro	nic Prolonged and repeated s dermatitis.	Prolonged and repeated skin contact with diluted solutions may induce dermatitis.	
Individual constituents			
MAGIC DUCO (as sold)	MAGIC DUCO (as sold)		
ΤΟΧΙΟΙΤΥ	Not toxic, based on ingredients. Oral LD50 (calculated) : > 5,000 mg/kg	IRRITATION	Causes eye irritation, based on ingredients.
Cocamide monoethanolamide		-	
Acute Toxicity	LD50 : > 3,000 mg/kg - Rat , male	Carcinogenicity	NO

Mobility in soil	Cocamide monoethanolamide	Not available	

Page 10 of 12

### Safety Data Sheet

Ingredient	Mobility
Sodium lauryl ether sulphate	Dissolves in water. If product enters soil, it will be highly mobile and may contaminate groundwater.
Sodium dodecylbenzenesulphonate	Due to its physico-chemical characteristics, highly mobile in the environment and will partition to the aquatic compartment.
Cocamide monoethanolamide	Not available

#### Section 13 – Disposal considerations

Waste treatment methods	
Product and Packaging	Recycle wherever possible or consult manufacturer for recycling options. Consult
Disposal	state land waste authority for disposal. Bury or incinerate residue at the approved site. Recycle containers if possible, or dispose of in an authorised landfill.

### Section 14 – Transport Information

Labels Required	
Transport pictogram	None Allocated
Marine Pollutant	None Allocated
HAZCHEM	None Allocated
Land Transport (ADG)	
UN Number	None Allocated
Packing Group	None Allocated
UN Proper shipping name or	None Allocated
Technical name	
Environmental hazard	No relevant data
Transport hazard class(es)	None Allocated
Special Precautions for user	None Allocated
-	None Allocated
Additional information	Not Available

#### Section 15 – Regulatory Information

Health, safety and environment regulations	
Poisons Schedule	Not scheduled

<b>Risk assessments</b>	This SDS is a tool to communicate hazards which can assist you in creating relevant risk assessments for your workplace. There are many variables in determining whether a particular hazard is a risk in your workplace. Keep in mind

Page 12 of 12

### Safety Data Sheet

	this may be influenced by such things as the amount used, frequency of use, engineering controls, effectiveness of safety training and many more considerations.
Disclaimer	Safety Data Sheets are updated frequently. Please ensure that you have a current copy. This SDS summarises our best knowledge of the health and safety hazard information of the product and how to safely handle and use the product in the workplace. If clarification or further information is needed to ensure that an appropriate risk assessment can be made, the user should contact XO2 Pty Ltd. Our responsibility for products sold are subject to our standard terms and conditions. Where health or safety data given discloses a risk to the user or environment, it is the responsibility of the Purchaser to pass on that information to employees or those who may be using the product, ensuring that adequate safety procedures are used including good industrial hygiene.
